REPORT OF THE COUNCIL,

To the Members, at the Annual General Meeting, Wednesday, February 27th, 1878.

I. SESSION 1876–77.

PUPILS AND FEES.

The entire number of Pupils during this Session was 1619, being an increase of 4 on that of the preceding Session. Of these, 851 were Students in the College, and 768 Pupils in the School. Of the Students, 344 belong to the Faculty of Medicine, 99 being new Students: in the Faculties of Arts and Laws and of Science there were 507 Students, 275 being new Students. The largest number of Boys in the School in any one Term was 616.

The Fees received (exclusive of those for Clinical Instruction) amounted to £28,860 16*s.* 6*d.*, being £317 14*s.* 6*d.* more than in Session 1875–76. This sum consists of the following items:—Fees for attendance on the Classes of the Faculty of Medicine, £6702 3*s.*; Fees for attendance on the Classes of the Faculties of Arts and Laws and of Science, £7840 17*s.* 6*d.*; School Fees, £14,317 16*s.* The total payments to Professors, Teachers, and Masters amounted to £19,495 1*s.* 3*d.*, leaving £9365 15*s.* 3*d.* for the College portion, which was thus greater by £153 17*s.* 6*d.* than in the preceding Session. In addition to the above-stated amounts, the sum of £2537 (being an increase of £135 2*s.* on the previous year) was received for Clinical Instruction in the Hospital, making a total of £9239 3*s.* paid by Students of the Faculty of Medicine in the Session. Two thirds of the Clinical Fees were this Session, for the first time, paid to the Hospital Staff, the balance being devoted to the support of the Hospital.

SCHOOL.

The Council are glad to observe from the Head Master's Report that the general tone and discipline of the School continue satisfactory.

The system of Consulting Masters, mentioned in the last Report, seems to work well.

In the Elementary Science Classes for younger boys Botany has been introduced in addition to Chemistry and Physics.

The Council have accepted an offer of £80 per annum for four years, made by the Head Master, to establish two Exhibitions, tenable at the College School, to be competed for by pupils of the Elementary Schools of the Metropolis.

Mrs. Isaac Cohen has handed to the Council the sum of £20, to be

awarded to the Candidate from the School who shall obtain the highest place in the Honours Division in the June Examination for Matriculation in the University of London. This prize is to be called the Juliana de Rothschild Prize, being given in memory of Mrs. Cohen's daughter, the late Baroness Mayer de Rothschild.

The following Table shows the number of boys in the School in each of the three Terms of the last five Sessions. In the first Term of the present Session the number was 638; this has risen during the present Term to 650:—

	1st Term.	2nd Term.	3rd Term.	Average for the year.
1872–73.....	508	542	567	539
1873–74.....	540	574	575	563
1874–75.....	560	582	589	577
1875–76.....	607	622	640	623
1876–77.....	594	616	615	608

It is worthy of notice that the raising of the School Fee from £8 to eight guineas per Term has been followed by an actual increase in the number of pupils.

From the Tables in the Vice-Master's Report it appears that out of a total of 768 boys, 55 were entered in the Black Book last Session, the total number of entries being 79. This satisfactory statement of the general condition of the discipline of the School receives frequent confirmation in the Reports of the Assistant Masters in relation to their respective classes.

The following list of distinctions obtained by former pupils of the School is selected from a much longer list, compiled by the Vice-Master, and prefixed to the printed "School Honour List."

S. Desai were respectively second and fifth in the Third Class. Two former Students of the College also obtained Honours in this Examination, viz. Mr. *T. E. Scrutton*, who was bracketed second in the First Class, and Mr. *Sidney White*, who was bracketed first in the Second Class.

At the Matriculation Examination in June 1877, Messrs. *W. D. Halliburton*, *M. D. Blunt*, *Edward Moritz*, *W. T. Whitley*, E. W. von Tunzelmann, E. W. Hallifax, and *L. H. Jacobsen* were placed in Honours thirteenth, seventeenth, twenty-third, forty-first, forty-fifth, fiftieth, sixty-sixth respectively, the total number in the Honours Division being 75. Messrs. *W. D. Halliburton* and *M. D. Blunt* obtained the number of marks qualifying for a Prize.

RETIREMENT OF MR. BOOTH.

The Council have received, with sincere regret, the resignation of Mr. James Booth, who has for nearly half a century, as a Member of the Council, devoted much time and attention to the business of the College, and rendered it on many occasions very important service.

DEATHS OF MEMBERS OF THE COLLEGE.

The Council regret to announce the loss of a liberal supporter of the College, Mr. John Pemberton Heywood, who contributed so munificently to the Building Fund.

The deaths of the following Members of the College have also been reported since the date of the last Report:—

Mr. Walter Bagehot.
Mr. Thomas Baring.
Sir E. S. Creasy.
Hon. G. M. Fortescue.
Mr. Charles Gregory.
Mr. G. H. Head.
Mr. F. Heisch, Jun.
Mr. J. Kennard.
Mr. A. L. Prevost.
Hon. Arthur Strutt.
Mr. R. N. Wornum.

PROFESSORSHIPS.

Since the date of the last Report, Professors G. V. Ellis, Erichsen, and Morris have resigned their Professorships, and have received the title of Emeritus Professor. At the close of the Winter Session the College will sustain a further loss by the retirement of Professor Russell Reynolds.

The Chair of Anatomy, vacated by Professor Ellis after a tenure of nearly thirty years, has been filled by the appointment of Mr. G. D. Thane.

The resignation of Professor Morris was received by the Council in July, and shortly after the beginning of the present Session Mr. T. G. Bonney, M.A., F.G.S., Fellow of St. John's College, Cambridge, was appointed to succeed him as Professor of Geology and Mineralogy. Professor Bonney commenced his Lectures immediately after the Christmas Vacation.

The Rev. Samuel Beal, B.A., has been appointed to the Professorship of Chinese, which had been for some time vacant.

LADIES' CLASSES AT THE COLLEGE.

The attendance at the Classes belonging to the Ladies' Educational Association, which meet here and are taught by Professors and other Teachers attached to the College, is more satisfactory than that during last Session.

In addition to the Department of the Fine Arts, the College Classes of Anglo-Saxon, Icelandic, Moeso-Gothic, the Higher Senior Class of Mathematics, the Physical Laboratory, and the Classes of Philosophy of Mind and Logic, Political Economy, Jurisprudence, Roman Law, Geology and Mineralogy are still open to Ladies; and permission has this Session been granted them to enter the Class of Mathematical Physics, the Senior Class of Physics, and the Second Course of Modern Geometry.

ATCHISON SCHOLARSHIPS.

The Scheme for these Scholarships, alluded to in the last Report, has now been confirmed by the Court of Chancery. The transfer of the Fund, however, has not yet been made.

MEMORIALS OF PROFESSORS KEY AND MALDEN.

The collection of Memorials of former supporters of the College has been increased by the presentation of a bust of Professor Key and a portrait of Professor Malden. In both cases the presentation was made in the name of a large body of subscribers.

MORRIS BEQUESTS.

A Scheme for giving effect to the bequests of the late Mrs. Carolina Honoria Morris to the College and Hospital is now under consideration.

BARLOW BEQUEST.

In accordance with the terms of Dr. Barlow's Will, a course of twelve Lectures on Dante's 'Divina Commedia,' free to both sexes, will be given this Spring.

Professor Volpe was appointed as the first Lecturer; but as he is unfortunately prevented by serious illness from preparing or delivering such a course, the Council have secured the services of Mr. Charles Tomlinson, F.R.S.

WEST SCHOLARSHIP IN ENGLISH.

This Scholarship has been founded by former pupils of Mr. West, late Head Master of Amersham Hall School, in recognition of his services in the cause of education.

The Scholarship, of the value of £30, and tenable at the College, will be awarded by the Council to that candidate who shall have obtained the greatest number of marks in the English subjects at the June Matriculation Examination in the University of London, if he shall have passed in the Honours or the First Division.

THE LIBRARIES.

The Medical Library has received a valuable addition through the gift by Mr. Quain of those Medical works from his own Library which were not already possessed by the College. The number of these volumes is 383.

The works of Dante and books relating to Italian History and Literature, bequeathed by the late Dr. H. C. Barlow, have been received.

Mr. Streatfeild has presented to the College, with other works, complete sets of the Journal of the Society of Arts and of the Transactions of the Microscopical Society.

The other principal donations of books during the past year are from the following:—The Lords Commissioners of H.M. Treasury, the Lords Commissioners of the Admiralty, the Secretary of State for India, the Trustees of the British Museum, the Royal Society, the Royal Asiatic Society, the Royal Astronomical Society, the Royal Institution of Great Britain, the Royal Medical and Chirurgical Society, the Medical Society of London, the Royal Institute of British Architects, the Society of Antiquaries, the Pathological Society, the Asiatic Society of Bengal, the Statistical Society, the Zoological Society, the Obstetrical Society, the Manchester Statistical Society, the Pharmaceutical Society, the Clinical Society, the Physical Society, the Institution of Civil Engineers, the Society of Engineers, the So-

ciety of Telegraph Engineers, the New Shakspere Society, the Smithsonian Institution, the Quekett Microscopical Club, Samuel Sharpe, Esq., A. Prevost, Esq., T. Ely, Esq., A. W. Franks, Esq., F. Norgate, Esq., Francis Marcet, Esq., J. F. Streatfeild, Esq., Dr. F. T. Roberts, R. J. Godlee, Esq., Professors Donaldson, Jevons, Wayte, Marshall, Robertson, Whitworth, Ch. Heath, Erichsen, and Morley, and Mrs. Bagehot.

PEEL MEMORIAL FUND.

The income of this Fund in 1877 was expended in the purchase of books &c. presented to the Greenock Mechanics' Institution, the Keighley Mechanics' Institution, and the Newport Free Library.

The Balance of the Dividends now in hand is £62 8*s.* 3*d.*

HOSPITAL.

In April last Mr. Newton H. Nixon was selected from a large number of candidates to fill the post of Secretary to the Hospital, the duties of which office have been remodelled and much increased.

Dr. L. S. Jameson was appointed in March 1877 Resident Medical Officer in place of Dr. Crocker, whose term of office had expired.

The total receipts for the year ending October 31st, 1877, including Legacies and the balance from the previous year, and a Loan of £1000 from the Bankers, amounted to £18,158 15*s.* 3*d.*; the gross expenditure was £16,983 12*s.* 2*d.*, consisting of the following principal items:—£2057 10*s.* 11*d.* on account of debts of the previous year, £11,826 1*s.* 3*d.* for expenses of the current year, and £3100 invested.

The balance at the end of the financial year was £1175 3*s.* 1*d.*, and the then outstanding debt amounted to £3555 6*s.* 5*d.*, being more than the amount of the previous year.

The Committee of the Metropolitan Hospital Sunday Fund, to whom the duty of distributing the money collected on Hospital Sunday in June 1877 was entrusted, awarded to University College Hospital £975, being £100 more than the sum received last year.

The Committee of the Hospital Saturday Fund have also granted to this Hospital from their 1877 Collection £151 3*s.* 2*d.*

Sir Henry Thompson presided at the Festival held on May 16th, 1877, on which occasion the amount subscribed was over £1300. The Dinner was largely attended by past Students of the Hospital, together with the present staff. The Festival for this year will be held at Willis's Rooms on Tuesday, 21st May, when Mr. J. Eric Erichsen, F.R.S., has kindly consented to preside.

At the Session of Council on the 21st April, 1877, it was resolved, "That the Council, on the proposition of the Medical or Hospital Committee, approved by the other of those Committees, should have power to confer the title of Consulting Physician or Surgeon on any one of the Physicians or Surgeons of the Hospital, on his retirement."

In virtue of the power conferred by this regulation, the following gentlemen, upon the recommendation of the Medical Committee, were appointed by the Council at their Session on the 7th July, 1877, "Consulting Physician" and "Consulting Surgeons" to University College Hospital, respectively:—

Consulting Physician.

WALTER H. WALSHE, M.D., F.R.C.P.

Consulting Surgeons.

Mr. Richard Quain, F.R.S., Surgeon Extraordinary to the Queen.

Mr. J. Eric Erichsen, F.R.S., Surgeon Extraordinary to the Queen.

Sir Henry Thompson, M.B., F.R.C.S., Surgeon Extraordinary to the King of the Belgians.

In consequence of the large increase in the number of Surgical Out-Patients, the Council, upon the recommendation of the Medical Committee, resolved to create the office of third Assistant-Surgeon to the Hospital, and Mr. Rickman J. Godlee, M.S., B.A., M.B., was appointed to that position by the Council on the 3rd November, 1877.

It may be interesting to point out that, from the foundation of the Hospital in 1833 up to 31st December, 1876, seven hundred and eighty thousand three hundred and ninety-five (780,395) In- and Out-Patients have been treated, at a cost of £340,561, or about 8*s.* 8*d.* a head.

Return of Services of the Members of Council from February 9, 1877, to February 8, 1878, inclusive.
